#### A VISIT TO THE DOCTOR

One day a man went to see his doctor and said to him, «I have swallowed a horse, doctor, and I feel very ill».

The doctor thought for a few seconds and said to him, «All right, Mr. Lloyd, I'll help you. Please, lie down on this bed».

The doctor's nurse gave the man an injection, the man fell asleep, and the doctor went to town to find a horse. After an hour he brought a horse to his office. When Mr. Lloyd opened his eyes, the horse was in front of him.

«This is your horse, Mr. Lloyd», the doctor said. «I took it out of your stomach. You will not have any problems any more».

At first Mr. Lloyd was happy, but then he looked at the horse again and said, «But, doctor, my horse was white, and this horse is brown»!

## 3) Напиши краткие ответы на вопросы.

- 1. Did the doctor think, «This man has really swallowed a horse»?
- 2. Why did the nurse give the man an injection?
- 3. What did the doctor do when he went out?
- 4. What did Mr. Lloyd see when he woke up?
- 5. Why was Mr. Lloyd not happy when he looked at the horse more carefully?
