### РАЗДЕЛ III. ЧТЕНИЕ

1) Прочитай текст «Food Shock» и выполни задания к нему.

#### Food Shock

Doctors in Britain are worried because British teenagers eat lots of crisps, sweets and other unhealthy food. Most teenagers don't eat fruits or vegetables and more than one million British schoolchildren are fat.

Some teenagers say that they don't have time to eat good food, but kids who have a bad diet often have health problems when they are older.

Fast food was born in America and now it is a part of life in many countries of the world. McDonald's, Pizza Hut, Burger King have restaurants on every continent.

People agree that the idea of fast food at a little price has its place around the world. These restaurants are popular because people need cheap and stylish snacks.

A diet of burgers, fries and soda may be delicious, but your body needs vitamins and minerals to stay healthy. Fast food lacks them.

Some parents don't like popular fast food restaurants where people eat high-calorie foods with no vitamins.

Now doctors give young people books and games about a good diet. You can feel well and be fit if you eat healthy, well-balanced meals.
